

## PET MARKET APPLICATIONS TABLE

Suitable for thermoforming, Ex-Tech's VersaTech™ PET is produced in gauges of 10 to 70 mil and can be sheeted, slit, laminated, coated and corona treated. Ex-Tech also offers special packaging services and warehousing, to ensure you meet critical production and delivery schedules.

3000 Series	Characteristics	End-Uses
RPET	<ul style="list-style-type: none"> <li>• Available in clear, black or custom colors</li> <li>• Made with a minimum of 50% post-industrial recycled material</li> <li>• Easily recyclable</li> <li>• Available in FDA grade</li> </ul>	<ul style="list-style-type: none"> <li>• Retail packaging</li> <li>• Food packaging</li> </ul>
APET	<ul style="list-style-type: none"> <li>• Available in clear, black or a variety of colors</li> <li>• Easily recyclable</li> <li>• More ductile</li> <li>• Superior performance in critical consumer applications</li> </ul>	<ul style="list-style-type: none"> <li>• Food and medical trays</li> <li>• Consumer packaging: clamshell, blister and tray</li> </ul>
Post-Consumer RPET	<ul style="list-style-type: none"> <li>• Transparent</li> <li>• Available in FDA grade</li> <li>• Available with a variety of PCR content to meet your specifications</li> <li>• Easily recyclable</li> </ul>	<ul style="list-style-type: none"> <li>• Consumer packaging: clamshell, blister and tray</li> <li>• Food packaging</li> </ul>
Co-Extrusion	<ul style="list-style-type: none"> <li>• Through the process of co-extrusion, we can develop film that will perform to the desired specifications of the package.</li> </ul>	<ul style="list-style-type: none"> <li>• Because of the combined use of multiple films, the end use of co-extrusion is dictated by the packaging needs and requirements.</li> </ul>
Static Control	<ul style="list-style-type: none"> <li>• Specifically engineered for packaging to contain ESD-sensitive items and for use in ESD controlled environments</li> </ul>	<ul style="list-style-type: none"> <li>• Thermoformed containers</li> <li>• High level of surface resistance and volume resistivity is ideal for the containment, transport and long-term storage of ICs, printed circuit boards and other ESD-sensitive components.</li> </ul>
Side-by-Side	<ul style="list-style-type: none"> <li>• Available in 2-lane black/clear PET or 3-lane black/clear/black PET</li> <li>• Supreme clarity on the lid</li> <li>• Good impact resistance</li> <li>• Custom colors available</li> <li>• Anti-fog coating available</li> </ul>	<ul style="list-style-type: none"> <li>• Food packaging (clamshells)</li> <li>• Retail packaging</li> </ul>
