The Deets

- Made from over 99% annually renewable, bio-based materials per ASTM D6866 testing
- Strong impact resistance for everyday packaging
- Highly transparent with awesome clarity
- Recyclable and compostable in commercial composting facilities
- Higher rigidity and lower density than PET
- Readily supports deep draw designs

Typical Material Properties(*)

Physical Properties	TFF02000	ASTM Method
Specific Gravity	1.24	D792
Haze, 18 mils, %	3-5	D1003
Luminous Transmittance, 18 mils, %	98	D1003
Mechanical Properties		
Ultimate Tensile Strength, psi (MPa)	8 700 (60)	D882
Tensile Modulus, psi (MPa)	390 000 (2 700)	D882
Elongation Modulus, %	6	D882
Gardner Impact Resistance, 18 mils, MFE, lbf.in (J)	2.5 (0.28)	D5420

Note: TFF02000 shrinkage is comparable to PET.
